

Collaboration Conversation Guide

To help speech pathologists and behaviour support practitioners work together effectively.

1 Understand the Behaviour Support Context

Ask questions to understand the purpose and focus of the behaviour support plan.

2 Share Your Perspective

Offer insight into your own role and how you can contribute to shared goals.

3 Clarify Roles and Expectations

Set clear boundaries so everyone knows who's doing what and when.

4 Plan for Collaboration

Set group goals, coordinate communication, what steps will each person take?

5 Reflect on the Experience

Notice what worked well and what could make collaboration easier next time?
